## EDUCATION

---

**Georgia Institute of Technology**, Atlanta, GA

- Bachelor of Science in Computer Science

August, 2016 – Present

Expected Graduation: May 2020

## EXPERIENCE

---

**ResultMaps**, Dallas, TX

June - August, 2016

*Software Developer*

- Developed a mobile application for a startup's project management system
- Wrote the app in JavaScript utilizing the React Native framework for easier deployment to both iOS and Android devices

**Chapmen Investments**, Dallas, TX

May, 2016

*Intern*

- Updated hundreds of client's social media information (Twitter and Facebook metrics)
- Created the website wallstreet-matters.com in Wordpress to establish a place for people to counter the media's depiction of wallstreet with discussion of the positive aspects
- Drafted a press release for an upcoming product designed to help people better manage their wealth

## PROJECTS

---

**Tic Tac Toe Game:** skipkayhil.github.io/ttt

Fall 2016

- Wrote a tic tac toe game in plain javascript utilizing a functional programming style
- Implemented a CPU player that makes the best possible move on each turn using a min-max algorithm

**Android App:** github.com/justlhigg/WheresMyStuff

Summer 2017

**Web App:** javachailatte.github.io/wmsr

- Created an Android application with a team for a class on Object Oriented Design and Project Workflow
- The application created a way for people to post lost or found items, allowing other people to recover them.
- Used AGILE development principles with set feature deadlines and application demos
- Developed a second version of the app using React.js for the UI and Redux for state management
  - Setup continuous integration with Travis CI to push production builds to Github Pages
- Incorporated Firebase as the backend of the app for user authentication and data storage

## LEADERSHIP

---

**Lambda Chi Alpha** – Philanthropy Committee

February 2017 – Present

- Organized chapter philanthropy events, helped raise \$13,000 for childhood cancer research

## SKILLS

---

**Applications:** Adobe CC (Photoshop, Illustrator, Premiere, After Effects)

**Languages:** Java (including Android), Web Development (HTML, CSS, JS, including React and module bundlers)

**Operating Systems:** Windows, macOS, Linux (Primarily Arch and Ubuntu)
